Anthony;

This fax is to confirm my decision to delete Claims 20-24 from my patent application
titled: **ERGONOMIC PULL-OUT COMPUTER HOUSING.**

Contact info:

Citizenship:	<u>Canada</u>
Residence:	<u>362 Perth St. Almonte, Ontario Canada K0A 1A0</u>
Post Office Address:	<u>PO Box 1134 Almonte, Ontario Canada K0A 1A0</u>
Phone (home):	(613) 256-6330
Phone (work):	(613) 763-1128

Thankyou;

Simon Shearman

To be deleted

~~20. A kit for facilitating easy installation and ergonomic positioning of a computer system on a desk, while enabling space saving and alternative uses of a computer desk, comprising:~~

~~a guide rail system for mounting on the back of the desk top;~~

~~a pull-out computer housing where conventional computer components are repartitioned into standard devices mounted in a CPU enclosure and user-accessible devices mounted in a flat drive bay; and~~

~~a hinge assembly provided between said CPU enclosure and said flat drive bay for enabling adjustment of the flat drive bay to a preferred angle and a preferred elevation.~~

~~21. The kit of claim 20, wherein said guide rail system comprises:~~

~~a left and a right rail for receiving a corresponding left and right tongue machined on the top lateral sides of said CPU enclosure;~~

~~a rear guide support bracket for supporting the rear end of said left and right rails while enabling adjustment of the height of said guide rail system with respect to the desktop and adjustment of said guide rail system to the depth of said CPU enclosure;~~

~~a pair of leg kit pieces for sustaining said rear guide support bracket; and~~

~~a front guide support bracket for attachment under the desk top,~~

~~wherein said left and right rails are attached to said rear and front guide support brackets.~~

~~22. The kit of claim 21, further comprising a cable clip assembly for dressing the cables exiting at the back of said CPU enclosure.~~

~~23. The kit of claim 22, wherein said cable clip assembly comprises:~~

~~a cable clip beam arranged transversally between said left and right rails for sliding to any location along said rails; and~~

~~a cable clip for holding and routing the cables exiting said CPU unit.~~

~~24. The kit of claim 21, wherein said CPU enclosure comprises a CPU body and a pair of pivoting hangers for enabling translation of said housing between a stow-away position when said CPU enclosure hangs from said rails and a maintenance position, when said flat drive bay assumes a 90° angle with said CPU enclosure,~~
